1991 Fiscal Year Final Research Report Summary

Plan of Medical Services and Right to Health

Research Project

Project/Area Number

63520027

Research Category

Grant-in-Aid for General Scientific Research (C)

Allocation Type

Single-year Grants

Research Field

社会学(労働法,社会保障法,経済法等)

Research Institution

Kanazawa University

Principal Investigator

INOUE Hideo Kanazawa University Faculty of law Professor, 法学部, 教授 (40114011)

Project Period (FY)

1988 - 1989

Keywords

Plan of Medical Services / Right of Health / Policy of Medical Services / Medical Services / Underpopulating / Population Aging

Research Abstract

We researched the condition of provisions of medical and welfare services in underpopulated and highly aged district, Hioki, Suzu city, Isikawa Prefecture.

There are not a hospital and people can't reserve any welfare services.

As a result We find that the people who are aged, sicked or handicapped can't live in underpopulated district.

So they go to hospital in Kanazawa, the biggest city in Isikawa, or move into their children's house.

We call this phenomenon an another underpopulating.

We will study this phenomenon from various points of view.
